Description

The Department of Management at Ca' Foscari University of Venice invites applications for a fellowship in:

Title:

Definition of a business model of the platform that enables the remuneration of data and services of a digital tourism ecosystem;

Scientific Field:

SECS-P/07;

Short abstract:

The research fellow will carry out his research in the context of the RIR project "Smart Destinations in the Land of Venice", a research project funded within the POR FESR Axis 1, Action 1.1.4 program for the support of collaborative R&D activities for the development of new sustainable technologies, new products and services.

The general objective is the design and experimental evaluation of a Digital Ecosystem for tourism, capable of coordinating supply and demand in order to enable the production of "Destinations", that is composite experiences merging in dynamic customized packages the different services offered by the numerous tourism stakeholders.

The specific objective of this grant is to define a business model that can be applied, appropriately declined, to the various components and frontends of the platform and that enables the remuneration of data and services, guaranteeing their openness and sustainability.
