Description

The Department of *Economics* at Università Ca' Foscari Venezia invites applications for a fellowship in:

- **Title:**
Macro-econometric model for dealing with uncertainty and climate shocks.
- **Academic Discipline or disciplines specifically identified by the call** SECS P/05
- **scientific coordinator and tutor:** Prof. Monica Billio
- **duration:** 12 months

abstract:

The growing concerns about climate change and the plans to transition to more sustainable economies they have spurred have motivated an important research stream of research, i.e., the economics of climate uncertainty. The project aims at the development and test of new models, which interlink climate uncertainty and to exploit their results to investigate the implications of sustainable finance, i.e., finance related to sustainability, to an ambiguity-averse investor who optimizes her portfolio in a regime of ambiguity induced by climate risk.

From an applied perspective, the main interest of the project is to establish whether the apparently purely ethical behaviour of sustainable investors is explicable in terms of the natural reduction in the ambiguity that sustainable assets bring to their portfolios.

The project on one side aims to provide a macro-econometric model that includes climate shocks and on the other plans to work at a granular level (single investors) to understand their portfolio choices and implications.

Who can apply

Prospective candidates are expected to hold a PhD degree in the subjects of the research, or related disciplines.

Ca' Foscari encourages applications from researchers with positive evaluation in all the criteria in individual proposals such as Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar.

Researchers having successfully completed Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific

Young Independence Research) or similar funded projects are warmly encouraged to apply.
