Research fellowship Data User Security Trust - Università Ca' Foscari Venezia (Italian law 30 December 2010, n.240, art. 22)

The present document in English is to be considered as a mere summary of the main provisions of the notice of competition which is available in Italian at the following (link). The text in Italian is the official text of the notice of competition for all legal intents and purposes and, in the event of non-conformity with the present document, it shall prevail.

Description

The Department of Environmental Sciences, Informatics and Statistics at Università Ca' Foscari Venezia invites applications for fellowship in:

TITLE: Data User Security Trust
SSD: INF/01
Tutor: Prof. A. Cortesi
Duration: 12 months

Abstract: The research grant will contribute within the Data User Security Trust (DUST) project, which aims to foster the development of a scalable privacy-friendly data management tool by addressing the issues related to possible conflicts between data controllers and data subjects and to provide evidence of further data sharing in the challenging scenarios, like the e-health sector. Ultima modifica 16 Aprile 2020 3 DUST will design and experiment with a novel type of Personal Information Management System, as a Privacy Enhancing Technology, where data controllers (e.g. hospitals) and data subjects (e.g. patients) both contribute to data protection. In particular, data subjects are provided with increased awareness on the processing of personal data, since they have a simple but enforceable way to consult and control the personal data processed by data controllers through a user-friendly dashboard, embedded in the digital service app, through which also data subjects may exercise their rights. From the point of view of data controllers, the application will be based upon a strong risk assessment of collecting personal data, by taking into account end users' preferences, to actualize which information is adequate and relevant for the requested services. In this way, it should be possible to underline the principles of accountability as outlined by the GDPR. DUST is functional to anonymize or aggregate data that are contained in Personal Data Stores, in order to strengthen mechanisms to increase data sharing and overcome technical obstacles to the reuse of data by fostering interoperability. Insofar that, it will be possible to feed a prototype of a Data Space which can be used by federated entities and cross-borders, and to enhance data sharing to the whole research community, in line with the European goal of promoting Data Spaces for research, innovation, policymaking, or commercialization.

The research can be carried out in English. The fellowship is intended to provide the successful candidate with the opportunity to pursue his/her own research while benefiting from the range of expertise at Università Ca' Foscari Venezia.

Dipartimento di Scienze Ambientali, Informatica e Statistica
Università Ca' Foscari Venezia
Campus Scientifico – Via Torino 155, 30170 Mestre (VE)

Who can apply

Prospective candidates are expected to hold a master's degree MSc in Computer Science or MTech in Computer Engineering or related fields**, or related areas** or equivalent foreign qualification or related disciplines.

Ca' Foscari encourages applications from researchers with positive evaluation in all the criteria in individual proposals such as Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar.
Researchers having successfully completed Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar funded projects are warmly encouraged to apply.

Duration of contract: 12 months, approximately starting: **September 2022**
Stipend: The research fellowship **amounts to 19.367,00 Euros per year**, including taxes and social charges.

Deadline for submission of applications: July, 18th, 2022 at 12.00 noon.

How to apply:

Candidates should submit:
1. The application form;
2. A motivation letter (max 1 page) along with their CV in European format, duly dated and signed, both to enclosed as a one single.pdf file. (link)
3. A copy of a valid identity document (either Identity Card or Passport);
4. (If available) Evaluation Summary Reports of Marie Skłodowska Curie Actions - Individual Fellowships/ ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) individual proposals having passed all the evaluation thresholds;
5. (If available) Details of Marie Skłodowska Curie Actions - Individual Fellowships, ERC Starting Grants, FIRB (Italian Fund for basic research investments)/ SIR Scientific Young Independence Research funded projects;
6. All documents, qualifications and publications relevant for the selection procedure (please, see the notice link).
All the schemes of the quoted documentation are available on the website (link).
The form for declaring the availability to carry out the interview remotely which can be found at this link www.unive.it/moduli-assegni and must be sent via email to segreteria.dais@unive.it with the object: Data User Security Trust - Prof. A. Cortesi

How to submit your application

Applications should be submitted by the online procedure, available on the notice webpage (link)

Dipartimento di Scienze Ambientali, Informatica e Statistica
Università Ca' Foscari Venezia
Campus Scientifico – Via Torino 155, 30170 Mestre (VE)
P.IVA 00816350276 - CF 80007720271
www.unive.it/dais

Or submit here:
Link: https://apps.unive.it/domandeconcorso-en/accesso/dais22cortesicofinanziato

The candidate, after the uploading, will receive a submission number and an e-mail acknowledging receipt of his/her application.

The candidate, if necessary, could access the procedures for updating any data and materials by the link provided by the e-mail, in any case any updates must be made no later than the deadline **July 18th, 2022 12.00 noon**.

Please note that the University can be contacted for any support needs by the candidate until 24 hours prior to the deadline.

Please note that in case of a high number of applications and / or weight of the materials loaded by the candidates the system might become slower. Therefore, it is suggested not to start the process close to the deadline.

NB: The University does not take on responsibility for wrong or late communication of addresses, nor for any communication problem not depending on the University.

Evaluation

Up to 100 points, specifically:
For qualifications, publications and possible tests, from 0 to 60;
For interview, from 0 to 40.

Candidates are admitted to the interview if assessment of the qualifications in a score equal to or greater than 42/60

Selection procedure

The interview will take place **on July 27th ,2022 at 04.00 p.m. Italian time**. Based on the Prime Ministerial Decree of March 1, 2020 "Further implementing provisions of the Decree-Law of February 23, 2020, no. 6 containing urgent measures regarding the containment and management of the epidemiological emergency from COVID-19 ", it will be possible to carry out the competition tests only electronically. The list of candidates admitted to the interview or any postponement will be announced on **July 26th , 2022** by notice that will be published on the website of this university (link) and on the web pages foreseen by current legislation.

This communication constitutes to all intents and purposes an official call and candidates will not receive any call or home communication. Therefore, candidates are required to present themselves, at the online interview, with a valid identification document, without prior notice, on the days and times indicated here. Any postponements will be made known on the day by means of a notice which will be published on the website of this university (link) and on the web pages envisaged by current legislation.

www.unive.it/dais

The interview:

The interview questions will cover:

- Formal Requirement Specification

- Software Engineering Methods and Tools

- Static Analysis Techniques

- Good knowledge of English

Information

The grant holder must express acceptance within 7 days from receiving the communication and must sign the relevant contract at the competent office. Considering the current travel restrictions on the whole national territory and the impossibility of accessing the structures, as a consequence of the epidemiological state of emergency from COVID-19, the grant holder must sign the relevant contract by affixing remote digital signature (https://www.agid.gov.it/it/piattaforme/firma-elettronica-qualificata/ottenere-firma-elettronica). In the impossibility of acquiring the digital signature remotely, exceptionally, it will be possible to proceed with the acquisition of the signature by correspondence (1). These provisions remain valid until the emergency ends, decreed by government deeds.

(1) The contract will be considered completed and fully effective between the parties, after the acquisition of all the signatures and the repertory of the deed.

- The contractor must attach a photocopy of the identity card.

Information and contacts

Candidates may find further details about the application process and the research project in the official call published on the following (link)
For further information please contact Prof. A. Cortesi - cortesi@unive.it
