Description

The Department of *Economics* at Università Ca' Foscari Venezia invites applications for a fellowship in:

- **Title:**

The Third Mission of the Department of Economics: from the analysis to the elaboration and implementation of a model for activities evaluation.

- **Academic Discipline or disciplines specifically identified by the call** SECS-S/03
- **scientific coordinator and tutor:** Prof.ssa Margherita Gerolimetto
- **duration:** 12 months

abstract:

The complexity of the so-called "Third Mission" activities put forward by a Department and so by a University requires a methodological approach in order to define, analyse, measure and eventually evaluate these activities. This is fundamental not only to follow the recent the national indications but also to progressively improve the proposals and enhance them from the perspective of the stakeholders outside the University (society, public and private institutions, companies, etc...). The reserch officer should then analyse the current scenario, by firstly identifying, as much rigorously as possible, the parameters and the characteristics that qualify an activity as Third Mission activity. This would mean full knowledge and deep understanding of the current regulations. Secondly, the reserch officer should ideate a model representing a conceptual framework, useful and accessible to the entire Department, in order to compare data sets, develop indicators aiming at the evaluation of the activities (both in progress and in agenda), support the process of accounting of the activies at local and national level. Finally, the research officer should focus on the activies planning to improve possible synergies among the Department members (both in terms of ideas and funds).
