

Call for Three Research fellowships - Università Ca' Foscari Venezia (Italian law 30 December 2010, n.240, art. 22). PNRR Project no.: PE0000015 Title of the project: "AGE-IT" Subject: Università degli Studi di Firenze CUP: H73C22000900006. Call issued by Ca' Foscari University of Venice.

The present document in English is to be considered as a mere summary of the main provisions of the notice of competition which is available in Italian at the following link: <http://www.unive.it/data/12137/> The text in Italian is the official text of the notice of competition for all legal intents and purposes and, in the event of non-conformity with the present document, it shall prevail.

Contest title: "PNRR_GRINS-PE8" - Call for three Research fellowships funded by PNRR

- **funding** – PNRR_PE8-AGE-IT
- **start of the programme:** The research programme envisages the start of the activity approximately in March 2023. In the event that legislation permits and given the project requirements, the contract may run beyond the indicated period.

Description

PROFILE 1 -- Spoke 6. Silver economy, retirement and social networks. Empirical evaluation of the impact of retirement on the social networks and the behaviour of older individuals based on longitudinal microdata. The study will take into account the institutional characteristics (also through international comparisons) as well as of the mechanisms underlying the relation of interest, including the access to Information and Communication Technologies of older individuals and their proficiency in dealing with these tools

- **SSD:** SECS-P01
- **Stipend:** The research fellowship amounts to **Euro 25.941,74.=per year**, gross to the recipient, net of the expenses to be sustained by the Provider. The amount may be subject to adjustment in the event of variations in the law
- **scientific coordinators and tutors:** Prof.ssa Agar Brugiavini e Prof. Danilo Cavapozzi

abstract:

Silver economy, retirement and social networks. The project is aimed at empirically assessing how retirement affects the social networks and behaviour of older individuals in an ageing society. This analysis will shed light on the social connections of retirees, which is of key importance to design welfare state interventions as well as public and private services in order to foster the social inclusion of older individuals. The analysis will be based on longitudinal (possibly multicountry) microdata focusing on this specific population. Particular attention will be devoted to the architecture of the pension systems in the countries involved in the survey and to the mechanisms underlying the relation of interest, including the access to Information and Communication Technologies of older individuals and their proficiency in dealing with these tools.

PROFILE 2 - Spoke 6. Silver economy, retirement and social networks. Empirical evaluation of the impact of retirement on the social networks and the behaviour of older individuals based on longitudinal microdata. The study will take into account the institutional characteristics (also through international comparisons) as well as of the mechanisms underlying the relation of interest, including the access to Information and Communication Technologies of older individuals and their proficiency in dealing with these tools

- **SSD:** SECS-P03
- **Stipend:** The research fellowship amounts to **Euro 25.941,74.=per year**, gross to the recipient, net of the expenses to be sustained by the Provider. The amount may be subject to adjustment in the event of variations in the law
- **scientific coordinators and tutors:** Prof.ssa Agar Brugiavini e Prof.ssa Valeria Maggian

abstract:

Silver economy, preferences and behavioural outcomes. Collection and analysis of experimental and survey data to elicit preferences of older individuals through a multidisciplinary approach combining economics, psychology and health conditions. Results will be used to develop theoretical frameworks that successfully predict individuals' choices and well-being in alternative scenarios differing with respect to welfare state and market characteristics.

PROFILE 3 - Spoke 10 Theoretical and data-driven study of the dynamic and mechanisms generating sub-population health-inequalities in longevity and healthy ageing

- **SSD:** SECS-S05
- **Stipend:** The research fellowship amounts to **Euro 25.941,74.=per year**, gross to the recipient, net of the expenses to be sustained by the Provider. The amount may be subject to adjustment in the event of variations in the law
- **scientific coordinator and tutor:** Prof. Stefano Campostrini

abstract:

The aims are to enhance the present policies and develop risk-based strategies to improve the health status and well-being of older adults in diverse populations, by developing statistical analyses and new modelling approaches to understand health, social, biological, and economic disparities related to ageing.

Who can apply

Prospective candidates are expected to hold a master's degree in the subjects of the research, or related disciplines.

Ca' Foscari encourages applications from researchers with positive evaluation in all the criteria in individual proposals such as Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting

Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar.

Researchers having successfully completed Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar funded projects are warmly encouraged to apply.

Favourite headlines

- **PROFILES 1 and 2**

- the Ph.D. degree;
- completion of attendance at a doctoral program while awaiting the award of the degree;
- Research on the topics of the call and of the Enlarged Partnership Age-It (Consequences and challenges of ageing)
- specialization diplomas and certificates of attendance at postgraduate specialization courses, obtained both in Italy and abroad, the performance of documented research activities at public and private entities with contracts, scholarships or assignments both in Italy and abroad;
- other titles.

- **PROFILES 3**

- the Ph.D. degree;
- completion of attendance at a doctoral program while awaiting the award of the degree;
- research experience on the topics covered by the grant and in any case on statistical modeling applied to social problems;
- specialization diplomas and certificates of attendance at postgraduate specialization courses, obtained both in Italy and abroad, the performance of documented research activities at public and private entities with contracts, scholarships or assignments both in Italy and abroad;
- other titles.

Deadline for submission of applications: by and no later than 2023-02-06, h. 12:00 noon – local time.

If the deadline is on Saturday or on holidays, the deadline is extended to the first working day thereafter.

WARNING! Please note that the University is closed for the Christmas festivities from 24th December 2022 to 8th January 2023. We strongly recommend that you DO NOT send applications for participation that must be received during the closing period indicated

How to apply:

Candidates should submit:

1. The application form;
2. A motivation letter (max 1 page) along with their CV in European format, duly dated and signed, both to enclosed as a one single.pdf file. (<http://www.unive.it/pag/28830>)
3. A copy of a valid identity document (either Identity Card or Passport);
4. If available, Evaluation Summary Reports of Marie Skłodowska Curie Actions - Individual

- Fellowships/ ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) individual proposals having passed all the evaluation thresholds;
5. If available, Doctoral degree ;
 6. Declaration on availability to held the interview in remote (<https://www.unive.it/pag/28830>) to be send via email at the following address: simar@unive.it:
 7. If available, Details of Marie Skłodowska Curie Actions - Individual Fellowships, ERC Starting Grants, FIRB (Italian Fund for basic research investments)/ SIR Scientific Young Independence Research funded projects;
 8. All documents, qualifications and publications relevant for the selection procedure (please, see the notice <http://www.unive.it/data/28825/>).

All the schemes of the quoted documentation are available on the website

<http://www.unive.it/pag/28830>.

How to submit your application

Applications should be submitted by the online procedure, available on the notice webpage <http://www.unive.it/data/28825/>

Or submit here:

CODE	LINK FOR SUBMISSION OF APPLICATIONS
PROFILE 1	https://apps.unive.it/domandeconcorso-en/accesso/dec-brugia-pnrr-ageit-23122022
PROFILE 2	WARNING! It is important that the application form contains the title of the Fellowship + CODE of the Profile for which you intend to compete: (<i>the wording to be inserted therefore will be the following: Contest Title + PROFILE of the Fellowship</i>).
PROFILE 3	It is possible to apply for more than one profile, but it is necessary to apply for each profile.

The candidate, after the uploading, will receive a submission number and an e-mail acknowledging receipt of his/her application.

The candidate if necessary could access the procedures for updating any data and materials by the link provided by the e-mail, in any case any updates must be made no later than the deadline **2023-02-06, h. 12:00 noon – local time.**

If the deadline is on Saturday or on holidays, the deadline is extended to the first working day thereafter.

Please note:

- The candidate can contact the University for any support until 24 hours prior to the deadline.
- In case of an high number of applications and / or weight of the materials loaded by the candidates the system might become slower, Therefore it is suggested not to start the process close to the deadline;
- The University does not take on responsibility for wrong or late communication of addresses,

nor for any communication problem not depending on the University.

Evaluation

Up to 100 points, specifically:

For qualifications, publications and possible tests, from 0 to 60;

For interview, from 0 to 40.

Selection procedure

The selection will take into account the cross-cutting priorities of the PNRR in relation to generational, gender and territorial equal opportunities

The interview will be held in remote only. Further details on how to connect online will be published on the web page alongside the convocation notice.

The interviews will take place telematically between **2023-02-16 and 2023-02-20, from 10.00 AM.**

The short-list of the candidates admitted to the interview and the exact date of the interview, or any postponement, will be published on the University's webpage between **2023-02-10 and 2023-02-14** (<http://www.unive.it/data/28899/>).

Interview Topics

- **PROFILES 1 and 2**
 - Knowledge of the models and of the scientific literature on the topics of the call
 - knowledge of the quantitative and experimental methodologies used in the analysis of the ageing process and of the silver economy

- **PROFILE 3**
 - statistical models applied to social phenomena, aging population, inequalities

English and, only for PROFILE 3, Italian knowledge will be evaluated during the interviews.

Scientific products

The research fellow, at the end of his/her activity must also provide the department with the following scientific products:

- **PROFILES 1 and 2**
 - Scientific production of at least one working paper

- **PROFILE 3**
 - At least co-authorship of one article per annum submitted to international scientific journals

Information and contacts

Candidates may find further details about the application process and the research project in the official call published on the following webpage <http://www.unive.it/data/28825/>
