### Establishes the following:

#### Art. 1 - Scope

1. A public selection is announced to award **no. 1 research fellowship** lasting 24 months, with the possibility of renewal within the limits of art. 2 of the Regulations on university research fellowship awarding, which will be subject to a specific contract.

The expected starting date is the 01/10/2023.

The research fellowship amounts to Euro 28.535,00 per year gross to the recipient, net of the expenses to be sustained by the employer. The amount may be subject to adjustment in the event of variations in the law.

2. The research fellowship is awarded for the purpose of collaboration with the following research programme of the Department of Philosophy and Cultural Heritage:

- **Title:** Innovation and Knowledge dissemination of academic and vocational medicine in cosmopolitan contexts
- **Scientific disciplinary sector and/or disciplines specifically identified by the call: Medical Humanities:** M-STO/05 (History of science and technology)
- **Scientific coordinator and tutor:** David Malcolm McOmish, PhD
- **Duration:** 24 months
- **Abstract:** The CAPIENS project seeks to provide an account of the distinctive nature of scientific culture in cosmopolitan contexts within Britain, France, The Holy Roman Empire, and the Venetian Republic. In these places, there existed several institutions and centres where a closely-connected group of academics from differing national and confessional backgrounds congregated and worked. These institutions possessed relative degrees of autonomy from the respective prevalent orthodoxies within their territories, attracting itinerant, "cosmopolitan" scholars. This project will offer an account of a series of geographically-broad developments in a variety of emergent scientific disciplines that pays attention to the multi-confessional and multi-national aspects. A recurring theme in all the centres indicated above is the role of reformed Galenic and Paracelsian medicine in a variety of academic and commercial contexts. Several key texts have been identified that were written by members of this network at Paris, Helmstedt, Padua, Edinburgh, Montpellier, Pisa, and Basel (from formal student Theses at universities to manuscript vocational texts related to those educated within the traditions) that sheds light directly upon the educational context of this meeting point of divergent medicinal practices. The successful candidate will examine and critically assess these texts.

3. The selection aims to ascertain the scientific-professional requirements deemed necessary to carry out the above research activities.

## **Art. 2 – Requirements for participation in the selection procedure**

3. Candidates must be in possession of the requirements at the deadline established by this selection procedure announcement (see art. 3).

4. The following are not eligible for fellowships and are therefore **automatically excluded from participation in the selection procedure**: candidates who have a degree of kinship or affinity, up to and including the fourth degree, with a professor belonging to the department or to the facility issuing the call for applications, or with the Rector, the Director-General or a member of the University Board of Directors.
