Prot n. 241887 del 25/10/2023

Research fellowship on Experimental study of modal particles, in relation to prosody and gestures - Università Ca' Foscari Venezia

(Italian law 30 December 2010, n.240, art. 22 and subsequent amendments and additions)

The present document in English is to be considered as a mere summary of the main provisions of the notice of competition which is available in Italian at the following ([link](#)) The text in Italian is the official text of the notice of competition for all legal intents and purposes and, in the event of non-conformity with the present document, it shall prevail.

Description

The Department of Linguistic and Comparative Cultural studies at Università Ca' Foscari Venezia invites applications for a fellowship in:

Title: Experimental study of modal particles, in relation to prosody and gestures

Scientific area: L-LIN/14, L-LIN/01

Abstract:

Within the PRIN project "Rethinking, Understanding Modal particles" (RUM), the research fellow will have to deal primarily with the implementation of Task 2, "Experimental study of modal particles, in relation to prosody and gestures," and contribute to Task 1, "Creation of a multimodal contrastive Italian/German corpus for modal particles." As for Task 2, the fellow will have to study the relationship between modal particles, prosody and gestures, including the creation and administration of psycholinguistic comprehension and production experiments, also making use of the softwares and equipment of the BemboLab at the Department of Comparative Linguistic and Cultural Studies. The experiments should be focussed on modal particles of German and/or Italian and will aim to construct contexts in which it is possible to test the contribution to sentence meaning of modal particles, prosody and gestures, in sentences with only modal particles, in sentences with modal particles together with particular prosodic intonation/gestures, in sentences with particular prosodic intonation/gestures without modal particles. The study will examine modal particles as defined in the most recent literature on the subject through direct comparison with modal particles in German, see especially Cognola & Moroni (2022).

The research fellow will, in addition, have to collaborate in the implementation of Task 1, in particular by discussing with the other members of the research team the results related to the multimodal analysis of the modal particles of German and Italian and applying them to the experimental part, and by entering the experimental results into the project's data-base. In addition, the fellow will be expected to collaborate in the organization of workshops and conferences planned by the project, participate in and contribute to Third Mission and dissemination events planned by the project, and contribute to the writing of publications on the project's topics.

Part of the research will be carried out in English.

The fellowship is intended to provide the successful candidate with the opportunity to pursue his/her own research while benefiting from the range of expertise at Università Ca' Foscari Venezia.

Who can apply

Prospective candidates are expected to hold a master's degree in LM- 37 or LM- 38 or LM-39.

Ca' Foscari encourages applications from researchers with positive evaluation in all the criteria in individual proposals such as Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar.

Researchers having successfully completed Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar funded projects are warmly encouraged to apply.

Duration of contract: 16 months (approximately starting: 1/12/2023).

Stipend: The research fellowship amounts to 19,367 Euros per year, including taxes and social charges.

Deadline for submission of applications: 9/11/2023, 12.00 noon.

How to apply:

Candidates shall submit:

1. The application form;
2. A motivation letter (max 1 page) along with their CV in European format, duly dated and signed, both to enclosed as a one single.pdf file ([link](#)); a declaration must be appended in the footnote of the curriculum, pursuant to the Italian DPR 445/2000 and subsequent amendments and additions, that the information provided corresponds to the truth. Moreover the candidates have to consent to the use of their personal data for the purposes of this selection procedure pursuant to the Italian Legislative Decree 196/2003 and to the EU Regulations 2016/679;
3. The attachments called "obligations and understanding" and "participation and compatibility";
4. All documents, qualifications and publications relevant for the selection procedure (please, see the notice - [link](#));
5. A copy of a valid identity document (either Identity Card or Passport);
6. (If available) Evaluation Summary Reports of Marie Skłodowska Curie Actions - Individual Fellowships/ ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) individual proposals having passed all the evaluation thresholds;
7. (If available) Details of Marie Skłodowska Curie Actions - Individual Fellowships, ERC Starting Grants, FIRB (Italian Fund for basic research investments)/ SIR Scientific Young Independence Research funded projects;

All the schemes of the quoted documentation are available on the website ([link](#)).

Incomplete applications will be rejected.

How to submit your application

Applications should be submitted by the online procedure, available on the notice webpage ([link](#))

Or submit here: <https://apps.unive.it/domandeconcorso-en/accesso/slcc-cognola-assegno1>

The candidate, after the uploading, will receive a submission number and an e-mail acknowledging receipt of his/her application.

The candidate if necessary could access the procedures for updating any data and materials by the link provided by the e-mail, in any case any updates must be made no later than the deadline **9/11/2023, 12.00 noon**.

Please note that the University can be contacted for any support needs by the candidate until 24 hours prior to the deadline.

Please note that in case of a high number of applications and / or weight of the materials loaded by the candidates the system might become slower, therefore it is suggested not to start the process close to the deadline.

NB: the University does not take on responsibility for wrong or late communication of addresses, nor for any communication problem not depending on the University.

Evaluation

Up to 100 points, specifically:

For qualifications, publications and possible tests, from 0 to 60;

For interview, from 0 to 40.

Selection procedure

Short-listed candidates will be invited for interview on 24/11/2023 at 9.00. The interview will be held in remote only. Further details on how to connect online will be published alongside the convocation notice.
