- **scientific coordinator and tutor:** Prof.ssa Monica Billio

abstract:

ESG ratings are now a key information source for the public at large, policy makers, academics, and investors. A growing literature analyses the relation between ESG ratings and investor behaviour, and highlights the material impact that ratings are having on financial markets. However, persistent issues remain with ESG ratings in terms of their measurement and impact. The project plans to examine the E, S, and G rating disagreement and the impact that it creates for firm managers incentives.

Who can apply

Prospective candidates are expected to hold a PhD Ph.D degree in the subjects of the research, or related disciplines.

Ca' Foscari encourages applications from researchers with positive evaluation in all the criteria in individual proposals such as Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar.

Researchers having successfully completed Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar funded projects are warmly encouraged to apply.

Favourite headlines

- specialization diplomas and certificates of attendance at postgraduate specialization courses, obtained both in Italy and abroad, the performance of documented research activities at public and private entities with contracts, scholarships or assignments both in Italy and abroad;
- significant research or consulting work or relevant work experience.
