- **scientific coordinators and tutor:** Prof. Roberto Casarin

abstract:

Assess the impact of climate change and ESG related news on investors' choices both in terms of type of investment and impact on returns. The analysis will consider both financial and insurance markets as to evaluate possible impacts on hedging strategies.

Who can apply

Prospective candidates are expected to hold a master's degree in the subjects of the research, or related disciplines.

Ca' Foscari encourages applications from researchers with positive evaluation in all the criteria in individual proposals such as Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar.

Researchers having successfully completed Marie Skłodowska Curie Actions - Individual

Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar funded projects are warmly encouraged to apply.

Favourite headlines

- the Ph.D. degree;
- completion of attendance at a doctoral program while awaiting the award of the degree;
- knowledge of a programming language for data analysis such as R, MATLAB or Python.
- previous research experiences on the research project
- knowledge of statistical and/or econometric softwares
- specialization diplomas and certificates of attendance at postgraduate specialization courses, obtained both in Italy and abroad, the performance of documented research activities at public and private entities with contracts, scholarships or assignments both in Italy and abroad;
- other titles
