Description

The Department of Philosophy and Cultural Heritage at Università Ca' Foscari Venezia invites applications for a fellowship financed by the Project SPIN 2023 “COCO - Interdisciplinary research on the microphysics of CONflict in COworking spaces” CUP H73C23000890005, tutor dott. Maurizio Busacca, in:

Title: Interdisciplinary research on the microphysics of CONflict in COworking spaces

Scientific Area/field: main SPS/09 (Economic sociology and sociology of work and organisations), secondary SPS/07 (General sociology)

Tutor: dott. Maurizio Busacca

Duration: 12 months

Abstract: The COCO project innovatively investigates collaborative spaces (CS) through the unexplored perspective of the conflict. While existing research primarily considers collaboration as the principal catalyst for innovation, social, and business opportunities in CS, the COCO project treats conflict as a central theme, scrutinizing relational, economic, and emotional processes. This research project contends that understanding conflicts, reflective of profound social, economic, and political tensions within and external to CS, can provide insightful revelations about their functionality and potential for social innovation. Thus, the latter understanding may contribute to shaping CS experiences towards a more sustainable path. Engaging a team of seasoned researchers from Eutopia universities, the project aims for scholarly outputs and lays the foundation for substantial future research. The anticipated collaboration with international CS networks and local governments positions the project to influence policy-making and design and management strategies in CS.

The research may be carried out in English.

The fellowship is intended to provide the successful candidate with the opportunity to pursue his/her own research while benefiting from the range of expertise at Università Ca' Foscari Venezia.
