Description

The Department of Linguistic and Comparative Cultural studies at Università Ca' Foscari Venezia invites applications for a fellowship in:

Title: Linguistic Complexity Evaluation in Education

Scientific area: L-LIN/01 Linguistics

Abstract: LUCET investigates the lexical, morphological and syntactic complexity of Italian and its relations with the processing difficulties encountered by students with typical and atypical development attending the last year of High School. The successful candidate will collaborate in the preparation of experimental materials to evaluate complexity in written texts in both production and comprehension, the coding of collected data, and the analysis of results. The research will analyse complexity at both the sentential level (with subordination: complete, relative, cleft sentences, and marked word order: passive sentences, sentences with topicalizations and focalizations) and the nominal level (complex determiners, quantifiers, partitive constructions).

The fellowship is intended to provide the successful candidate with the opportunity to pursue his/her own research while benefiting from the range of expertise at Università Ca' Foscari Venezia.

Who can apply

Prospective candidates are expected to hold a master's degree in Linguistics, or related disciplines.

Ca' Foscari encourages applications from researchers with positive evaluation in all the criteria in individual proposals such as Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar.

Researchers having successfully completed Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar funded projects are warmly encouraged to apply.
