abstract:

The ideal candidate's research interests lie in the area of the economics of gender, possibly investigating the role of gender in affecting educational and job choices and outcomes, and/or in cooperative game theory and bargaining, analysed from an experimental perspective. It is requested that she/he has experience in designing and running experiments in the laboratory and, preferably, online. Great knowledge of programming in zTree and/or oTree, Stata (or another statistical software) is essential while experience with Prolific is preferable.

Who can apply

Prospective candidates are expected to hold a master's degree in Economics, or related disciplines.

Ca' Foscari encourages applications from researchers with positive evaluation in all the criteria in individual proposals such as Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar.

Researchers having successfully completed Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific

Young Independence Research) or similar funded projects are warmly encouraged to apply.
