Description

The Department of Management at Università Ca' Foscari Venezia invites application for one-year fellowship in “*Cultural events legacy creation: the balance between innovation, tradition and sustainability*”, under the supervision of prof. Francesco Casarin (SECS-P/08 - Management).

Abstract: This project starts from a medium-long term reflection on how it is becoming increasingly important to be able to maximize the positive effects over time deriving from a cultural event. In event evaluation, traditionally only short-term impacts are measured and analyzed.

The objective of this research is the study of those dimensions of innovation, tradition and sustainability of a cultural event that can have medium-long term economic, social and environmental impacts. Through an integrated methodological approach that combines qualitative and quantitative analyses, the research aims to obtain an in-depth understanding of the dynamics of events through the involvement of both organizers and participants. Significant managerial implications will arise from this which could constitute new business models for the creation of exhibitions and festivals with more incisive effects on the territory, investors, the tourism sector, and also new resources for the well-being of residents.

The research may be carried out in Italian and English.

The fellowship is intended to provide the successful candidate with the opportunity to pursue his/her own research while benefiting from the range of expertise at Università Ca' Foscari Venezia.

Who can apply

Prospective candidates are expected to hold a master's degree in Economics (LM-56) or equivalent and scientific-professional curriculum suitable to the development of research activities related to the fellowship.

Ca' Foscari encourages applications from researchers with positive evaluation in all the criteria in individual proposals such as Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar.
