

Call for one Research fellowship - Università Ca' Foscari Venezia (Italian law 30 December 2010, n.240, art. 22). PNRR Project no.: PE0000014 Title of the project: "Security and Rights in the CyberSpace (SERICS)" Subject: Università degli Studi di Salerno CUP: H73C22000890001. Call issued by Ca' Foscari University of Venice.

The present document in English is to be considered as a mere summary of the main provisions of the notice of competition which is available in Italian at the following link: <http://www.unive.it/data/12137/> The text in Italian is the official text of the notice of competition for all legal intents and purposes and, in the event of non-conformity with the present document, it shall prevail.

**Contest title:** "PNRR\_ "Security and Rights in the CyberSpace (SERICS)" PE0000014" - Call for 1 Research fellowship funded by PNRR

- **funding** – PNRR\_ Security and Rights in the CyberSpace (SERICS) - PE0000014-CUP: H73C22000890001
- **start of the programme:** The research programme envisages the start of the activity approximately in **January 2025**.

## Description

### PROFILE 1 - Spoke 6. Enhancing Security for Robotic Software

- **SSD:** INFO-01/A
- **Cod. GSD (vd. DM 639/2024):** 01/INFO-01
- **duration:** 12 months
- **Stipend:** The research fellowship amounts to **Euro 23.367,00 per year**, gross to the recipient, net of the expenses to be sustained by the Provider. The amount may be subject to adjustment in the event of variations in the law
- **scientific coordinators and tutors:** Prof. Agostino Cortesi

### **abstract:**

This research project is directed towards investigating and enhancing the security of robotic software by focusing on three critical aspects: robotic system component integration, human-robot interaction, and navigation vulnerabilities. Robotic systems are complex by nature and the software stack is often responsible for co-ordinating the various independent components. Loose coupling between these components can leave the system vulnerable to critical and covert attacks. With the integration of Artificial Intelligence (AI) into the software components, human-robot interactions are being enhanced but at the same time leaves the system open to bias and manipulation from external elements. The project aims to develop a comprehensive framework to identify and mitigate security implications for robotic systems integrating AI into their software.

## Who can apply

Prospective candidates are expected to hold a **Master degree in Computer Science or Computer Engineering** (or equivalent title according to the Italian law) or equivalent qualification obtained abroad and appropriate scientific-professional curriculum.

Ca' Foscari encourages applications from researchers with positive evaluation in all the criteria in individual proposals such as Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar.

Researchers having successfully completed Marie Skłodowska Curie Actions - Individual Fellowships/ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) or similar funded projects are warmly encouraged to apply.

## Favourite headlines

- the Ph.D. degree;
- completion of attendance at a doctoral program while awaiting the award of the degree;
- Research on the topics of the call and of the Enlarged Partnership Age-It (Consequences and challenges of ageing)
- specialization diplomas and certificates of attendance at postgraduate specialization courses, obtained both in Italy and abroad, the performance of documented research activities at public and private entities with contracts, scholarships or assignments both in Italy and abroad; - other titles.

**Deadline for submission of applications: by and no later than December 2nd, 2024, h. 12:00 noon – local time.**

## How to apply:

Candidates should submit:

1. The application form;
2. A motivation letter (max 1 page) along with their CV in European format, duly dated and signed, both to enclosed as a one single.pdf file. (<http://www.unive.it/pag/28830>)
3. A copy of a valid identity document (either Identity Card or Passport);
4. If available, Evaluation Summary Reports of Marie Skłodowska Curie Actions - Individual Fellowships/ ERC Starting Grants/FIRB (Italian Fund for basic research investments)/SIR (Scientific Young Independence Research) individual proposals having passed all the evaluation thresholds;
5. If available, Doctoral degree ;
6. Declaration on availability to held the interview in remote (<https://www.unive.it/pag/28830>) to be send via email at the following address: [segreteria.dais@unive.it](mailto:segreteria.dais@unive.it)
7. If available, Details of Marie Skłodowska Curie Actions - Individual Fellowships, ERC Starting Grants, FIRB (Italian Fund for basic research investments)/ SIR Scientific Young Independence Research funded projects;

8. All documents, qualifications and publications relevant for the selection procedure (please, see the notice <http://www.unive.it/data/28825/>).

All the schemes of the quoted documentation are available on the website <http://www.unive.it/pag/28830>.

### **How to submit your application**

Applications should be submitted by the online procedure, available on the notice webpage <http://www.unive.it/data/28825/> **Or submit here:**

<https://apps.unive.it/domandeconcorso-en/accesso/dais2024pnrrcortesi>

The candidate, after the uploading, will receive a submission number and an e-mail acknowledging receipt of his/her application.

The candidate if necessary, could access the procedures for updating any data and materials by the link provided by the e-mail, in any case any updates must be made no later than the deadline **December 2nd, 2024, h. 12:00 noon – local time.**

If the deadline is on Saturday or on holidays, the deadline is extended to the first working day thereafter.

### **Please note:**

- The candidate can contact the University for any support until 24 hours prior to the deadline.
- In case of an high number of applications and / or weight of the materials loaded by the candidates the system might become slower, Therefore it is suggested not to start the process close to the deadline;
- The University does not take on responsibility for wrong or late communication of addresses, nor for any communication problem not depending on the University.

### **Evaluation**

Up to 100 points, specifically:

For qualifications, publications and possible tests, from 0 to 60;

For interview, from 0 to 40.

### **Selection procedure**

*The selection will take into account the cross-cutting priorities of the PNRR in relation to generational, gender and territorial equal opportunities.*

**The interview will held in remote only. Further details on how to connect online will published on the web page alongside the convocation notice.**

The interview will be held in any case **on December 9th, 2024 at 3:00 P.M.** by, Google meet. The list of candidates admitted to the interview will be published from December 5th, 2024.

### **Interview Topics**

- Robotic Operating System
- Non-Functional Requirements' Analysis and Verification Techniques
- Security Issues in Robotic Systems
- Good knowledge of English
- Good knowledge of Italian

### **Scientific products**

The research fellow, at the end of his/her activity must also provide the department with the following scientific products:

- Research Fellowship Final Report

### **Information and contacts**

Candidates may find further details about the application process and the research project in the official call published on the following webpage <http://www.unive.it/data/28825/>.

For further information please contact: Segreteria Amministrativa DAIS, phone number: 041-2348526-8531; e-mail: [segreteria.dais@unive.it](mailto:segreteria.dais@unive.it)
