The expected starting date is indicatively from June 2025.

The research fellowship is awarded for the purpose of collaboration with the following research programme of the Temporary Centre “Project CHANGES”-

Abstract:

The bursary holder will carry out research support activities in the development of the Made@Changes certification, based on both a quantitative and qualitative methodological approach, for the assessment of the social sustainability of virtuous cultural and cultural tourism projects on the Italian territory. In particular, the scholarship holder will support the research team in the identification of appropriate qualitative/quantitative indicators also through interlocutions with the 22 operators beneficiaries of the Cascade Fundings, who are involved both as co-designers of the certification and as pilot cases on which to test the certification, in order to bring it to a mature definition by the end of the Changes project. The work will mainly consist in managing and analysing the data already collected and in supporting the collection of further data through subsequent interlocutions. The project uses primarily qualitative data, so the fellow will help the research team in the analysis of interviews and non-participant observation of community events.

The research grant amounts to Euro 12.000,00.
