Enrollment	<p>The enrolment is done within a Bidding system. The bidding system for enrollment is a system that several universities across Europe are using in order to allow students to enroll in the courses they want due to the limited places. Each student is given a certain number of points and distributes the points by the courses they wish to attend. In this way, students who really want to take a certain course will much probably give more points to that one course than to another they want less. It works like a bid. In the end, the students who offered the highest bids will get a place in the course.</p> <p>At Nova we have a limited number of places in each course. We are not able to guarantee that all students are placed according to their first preferences: we advise students to have alternative choices approved by their home university.
