

## Nomination/application of students for departmental bilateral agreements – Department of Asian and Middle Eastern Studies

Once selected by their home university for the exchange, students should fill in the application form (attached to this email). After having filled in the application form, the student should attach a copy of their transcript and return to the coordinator at their home university.

The coordinator at the home university then sends the application/s and the transcript/s to the Department of Asian and Middle Eastern Studies, [exchange.asia@su.se](mailto:exchange.asia@su.se).

The student will then receive information about visa application, housing and course selection directly from us (with the coordinator in copy).
