TechMed Meetings

Artificial Skins as Neurodegenerative Models

February 3rd, 2026

Room Delta 1B, Delta Building

11.00 **Ines Fasolino**
Institute of Polymers, Composites and Biomaterials –
National Research Council (IPCB-CNR)
New technologies for the diagnosis of neurodegenerative disorders

11.45 **Ugo D'Amora**
Institute of Polymers, Composites and Biomaterials –
National Research Council (IPCB-CNR)
New technologies for the development of 3D models useful for identifying new biomarkers for the diagnosis of neurodegenerative disorders, including amyotrophic lateral sclerosis (ALS)

Organized by **Alessandro Silvestri** in the frame of the PhD Programs of Engineering Physics & Materials and Sustainable Chemistry
