

Dr. Lorenzo Branzi earned his BSc. (2016) and MSc. (2018) from the University of Padua. He then received his PhD in Science and Technology of Bio and Nanomaterials from Ca' Foscari University of Venice under the supervision of Prof. Alvise Benedetti (Unive) and Prof. Adolfo Speghini (Univr), graduating in 2022. Since 2022 he has been a postdoctoral research fellow at Trinity College Dublin under Prof. Yurii Gun'ko. His research activity is focused on the development of novel chiral nanomaterials, with particular interest in multinary quantum dots and transition metal dichalcogenides.
