# Campus Tales 2026

## Il campus scientifico si racconta

21 maggio 2026

Auditorium Danilo Mainardi, Edificio Alfa - Campus Scientifico

Giornata di incontro con presentazioni orali e poster tra i Dipartimenti di Scienze Molecolari e Nanosistemi e Scienze Ambientali, Informatica e Statistica

9.00-9.30

**Saluti di benvenuto**

**Chiara Zanardi & Davide Zanchettin**

PINK

Global Challenges

9.30-9.45

**Alessandro Silvestri (DSMN)**

*Sustainable electrochemical sensors: from nanomaterial design to biomedical applications*

9.45-10.00

**Zeynep Yucel (DAIS)**

*Interaction in Dynamic Scenarios of HRI*

10.00-10.15

**Nicola Ferro (DSMN)**

*Solving real-world engineering problems with numerical models and methods*

10.15-10.30

**Margherita Gnemmi (DAIS)**

*Research Innovation and Collaborative Perspectives in Heritage Science*

10.30-10.45

**Leonardo Puppulin (DSMN)**

*Visualization of biomolecules at work by high-speed atomic force microscopy*

10.45-11.00

**Leonardo Maccari (DAIS)**

*Communication networks topologies, from the Wired Internet to 6G*

11.00-11.15

**Riccardo Arpaia (DSMN)**

*Quantum Materials by Design: Growth and Synchrotron X-ray Studies of Unconventional Superconductors*

11.15-11.30

**Pierluigi Zama Ramirez (DAIS)**

*Neural Networks - Functions or Data?*

11.30-12:00

**Conclusioni**

12.00-14.00

**Poster session + rinfresco**
