Rising Tides, Melting Glaciers: Semiotics after Geontopower

**Elizabeth A.
Povinelli**

Franz Boas Professor of
Anthropology & Gender Studies,
Columbia University

Welcome remarks and introduction
Francesca Tarocco
Director of NICHE

Using examples of rising tides in Karrabing country and melting glaciers in her ancestral lands in Carisolo Trentino, Povinelli asks what is at stake in developing a geontosemiotics which demonstrates how Nonlife is an interpretive agent in contemporary climate collapse and a semiotics after geontopower which focuses on the uneven sedimentations of the colonial invasions of the Atlantic and Pacific.

**3 May
2023**

4:00 PM (CEST)

**Ca' Bottacin
Main Hall**

Calle Crosera
Dorsoduro 3911,
Venice
