

# Emotions, Affects, Feelings: Asian and European Historical Encounters

10-11 September 2024

Sala A, Palazzo Vendramin  
Ca' Foscari University of Venice

Convenor: **Linda Zampol D'Ortia**

This workshop aims to analyse the religious and cultural encounters between Asia and Europe (before 1945) through the lenses of emotions, affects, and feelings. In the past decades, the affective/emotional turn has sustained the re-assessment, and increased our understanding, of many historical processes and contexts. From this point of view, scholarship has just started investigating the history of the encounters between Asia and Europe and this workshop intends therefore to promote scholarly discussion on this theme.
