This workshop will take place at the Armenian AKNEYE Phygital Space within Venice Biennale, offering high school and university students a unique opportunity to engage in artistic creation. Participants will use an Armenian Aknuloonk as their canvas and receive guidance from a professional AKNEYE artist. The workshop aims to foster creativity, provide hands-on experience and introduce students to contemporary art practices in an immersive environment. The event will involve students from Ca' Foscari University's "Armenian Language" courses, students from Giuseppe Parini High School (Mestre -Venice, ref. Professors Erica Medici and Anna Haroutyunian), and Erasmus+ ICM visiting Professors Seda Gasparyan and Gevorg Barseghyan (Yerevan State University).
