

DEDM. Digital Edition of the «Devisement dou monde»

Chapter 35

Critical Apparatus

#35

[1] Here is described the city of Qamadin^a

[2] And after having gone downhill for those two days as I told you, you find a large plain, which extends(?) five days southward, and at the beginning of this plain there is a city called Qamadin, which was once very big and very noble, but is now no longer so, because the Tartars from another country have ravaged it on several occasions. And I tell you that it is very hot in the plain. And the province we are now beginning to describe is called Reobar. ^b[3] Its fruits are dates and apples of paradise and pistachios and many other fruits that are not found in our cold regions. And in

^a [1] Here is described the city of Qamadin

Critical Note

^b [2] And after having gone downhill for those two days as I told you, you find a large plain, which extends(?) five days southward, and at the beginning of this plain there is a city called Qamadin, which was once very big and very noble, but is now no longer so, because the Tartars from another country have ravaged it on several occasions. And I tell you that it is very hot in the plain. And the province we are now beginning to describe is called Reobar.

Critical Note

^c [3] Its fruits are dates and [...] francolins

Critical Note

this plain there is a species of bird called 'francolins', which are different from the ones that are found in our cold regions, and they have a different color. And they have a different shape. And they have a different size. And they have a different sound. And they have a different behavior. And they have a different habitat. And they have a different diet. And they have a different lifespan. And they have a different reproduction rate. And they have a different migration pattern. And they have a different social structure. And they have a different communication system. And they have a different intelligence. And they have a different culture. And they have a different language. And they have a different religion. And they have a different philosophy. And they have a different art. And they have a different science. And they have a different technology. And they have a different economy. And they have a different politics. And they have a different society. And they have a different history. And they have a different future.

^d [4] The cattle are different too, and they have a different color. And they have a different shape. And they have a different size. And they have a different sound. And they have a different behavior. And they have a different habitat. And they have a different diet. And they have a different lifespan. And they have a different reproduction rate. And they have a different migration pattern. And they have a different social structure. And they have a different communication system. And they have a different intelligence. And they have a different culture. And they have a different language. And they have a different religion. And they have a different philosophy. And they have a different art. And they have a different science. And they have a different technology. And they have a different economy. And they have a different politics. And they have a different society. And they have a different history. And they have a different future.

OLTRE LA TRADIZIONE POLIANA Life e Afterlife delle Edizioni scientifiche digitali

Sala B, Ca' Bernardo

12 dicembre 2024

14.00-14.30 Saluti istituzionali e apertura dei lavori

SESSIONE I: Edizioni scientifiche digitali

presiede: **Martina Venuti**, Università Ca' Foscari Venezia

14.30-15.00 **Marina Buzzoni, Eugenio Burgio, Giulia Fabbris, Samuela Simion** (Università Ca' Foscari Venezia), *Il Ramusio Digitale 2.0 nell'ambito della galassia poliana*

15.00-15.30 **Marina Buzzoni** (Università Ca' Foscari Venezia), **Roberto Rosselli Del Turco** (Università di Torino), *Le Leges Langobardorum (PRIN 2022 PNRR): edizioni diplomatico-interpretative dell'Editto di Rotari nei due testimoni piemontesi*

15.30-16.00 **Irene Reginato** (Università di Udine), *Dal progetto alla sua conservazione: l'edizione digitale del Libro delle nuove e strane e meravigliose cose di Odorico da Pordenone*

16.00-16.30 discussione

16.30-16.40 **Martina Correnti** (Università Ca' Foscari Venezia, Laurea Magistrale in Digital and Public Humanities), *Presentazione del poster «Silkroadopoly»*

16.40-17.00 coffee break

SESSIONE II: Edizioni scientifiche digitali, Editoria e Sviluppo software

presiede: **Chiara De Bastiani**, Università Ca' Foscari Venezia

17.00-17.30 **Massimiliano Vianello, Giuseppe Bonelli** (Edizioni Ca' Foscari), *ECF per le edizioni scientifiche digitali*

17.30-18.00 **Chantal Pivetta** (Lunds Universitet), **Renato Caenaro** (CEO SilentWave), **Roberto Rosselli Del Turco** (Università di Torino), *Digital Philology for Dummies (DPhD) e Edition Visualization Technology (EVT3)*

18.00-18.30 **Davide Cucurnia** (Università di Pisa), **Roberto Rosselli Del Turco** (Università di Torino), **Marina Buzzoni** (Università Ca' Foscari Venezia), *Visualizzazione delle varianti in un'edizione genetica digitale: il Progetto Saba*

18.30-19.00 discussione e chiusura dei lavori

20.00 Cena presso il Ristorante «Al Profeta», Calle Lunga S. Barnaba, 2671, 30123 Venezia VE

13 dicembre 2024

SESSIONE III: Workflow delle edizioni scientifiche digitali, Centri di ricerca, Infrastrutture

presiede: **Ermanno Malaspina**, Università di Torino

9.30-10.00 **Monica Monachini** (CNR-ILC "Antonio Zampolli", CLARIN-IT), *Gestione e fruizione di corpora letterari in CLARIN e in H2IOSC*

10.00-10.30 **Jean-Baptiste Camps** (École Nationale des Chartes, PSL), *Building and analysing large corpora with artificial intelligence: the case of the Corpus of Medieval French Epics and Romances*

10.30-11.00 discussione

11.00-11.30 coffee break

presiede: **Paola Peratello**, Università Ca' Foscari Venezia

11.30-12.00 **Franz Fischer** (Università Ca' Foscari Venezia, VeDPH), *AI for Digital Editions Workflows*

12.00-12.30 **Federico Boschetti** (CNR-ILC "Antonio Zampolli", DiPTeX-KC), *Bibliografie monotematiche come collezioni di dati FAIR*

12.30-13.00 discussione e chiusura dei lavori

13.15 Pranzo di lavoro presso l'«Orange Cocktail Bar», Campo Santa Margherita, 3054a, 30123 Venezia

14.30-16.30 **Riunione PRIN 2022 PNRR (Leges Langobardorum)**

UniVE: **Marina Buzzoni, Franz Fischer, Martina Venuti, Fabio Soncin**

UniTo: **Roberto Rosselli Del Turco, Ermanno Malaspina**
