Associate Professor of International Business
Strategy, Trinity Business School, Dublin

Introduction:

Prof. Giancarlo Corò

Ca' Foscari University of Venice

The **workshop** offers students an in-depth look at economic analysis and policy evaluation to support Innovation Entrepreneurial Ecosystems. Through the presentation and discussion of several case studies, faculty from **Trinity Business School Dublin** will lead the discussion on strategies and best practices adopted in different international contexts. An opportunity to understand the dynamics of innovation and the role of industrial policies in promoting entrepreneurial development even in regions outside the major metropolitan hubs.
