The usage of the GAMS Solver Links, including the Open Source Links to commercial solvers, requires confirmation that the user has a valid license agreement for use of the current version of the solver library, and that the use of the solver will comply with the terms of that license.

German customers are charged the German VAT (currently 19%) on their orders. EU customers are not charged the German VAT, if a valid VAT-ID is provided with the order (reverse charge). The German VAT is also not charged on orders placed from outside the EU. Our VAT-ID is DE811975677.

All amounts are stated in EUR and do not include applicable taxes and tariffs.

The price includes maintenance & support and free updates until the date indicated in the table above.
